Since 9/11, we have been helping America's heroes by providing mortgage-free homes to Gold Star and fallen first responder families with young children and by building specially-adapted smart homes for catastrophically injured veterans and first responders. We are also committed to eradicating veteran homelessness and helping America to Never Forget September 11, 2001.

The mission of the Tunnel to Towers Foundation is to honor the sacrifice of firefighter Stephen Siller who laid down his life to save others on September 11, 2001. We also honor our military and first responders who continue to make the supreme sacrifice of life and limb for our country.

Our mission is to show our gratitude for the sacrifices and service of the U.S. Armed Services returning from war who have been catastrophically injured by building smart technology homes so they can regain their independence.

Since its inception, the Foundation has been committed to practicing sound fiscal management, organizational efficiency and program integrity. Tunnel to Towers keeps fundraising and administrative costs at a minimum, with only a small percentage of funds allocated to overhead expenses. For the past several years, the Foundation's program service percentage on average was 95% – 95 cents out of every dollar goes directly to our programs and services. Program service ratio is a key barometer used to measure operating effectiveness. The organization's Chairman and CEO, Frank Siller, is an uncompensated volunteer. For seven years running, the Foundation has achieved the highest rating, four stars from Charity Navigator, the nation's largest and most-utilized evaluator of charities.
